THE demand for the occupation of Weihaiwei in perpetuity is, it is reported, Japan's reply to the cession of Port Arthur and Talienwan to Russia. The cession in the one case as well as in the other may be made under the name of a lease for a term of years, but for all practical purposes the lease may be considered a complete surrender of the territories in question. AFFAIRS IN THE PHILIPPINES: COMMUNICATION WITH MANILA OUT OFF.

For some days past there have been alarming reports in orealation with reference to the position of affairs in Luzon. On the Sth we published a paragraph stating that it was reported that another rebellion had commence in the Philippines and that an encounter Spanish troops had taken place. On the previous day the cable companies had issued notification stating that the Branish Government land lines beyond Bolingo had been interrupted since Sunday night, 6th inst. and that telegrams were being forwarded to Bolinao to await restoration of the land lines. Yesterday another notification was issued stating that owing to the continued interruption of the Spanish Government's land line between Bolingo and Manile, and the interraption of all postal communication between those put Delegrams for the Philippines are being despe om Hongkong, Amoy, &c. by steamer. A this it is to be informed that against the purch the rebels are in possession of the country between Belinso and Manils. In the late rebellion this district was so little affected that telegraphic and postal communication was maintained throughout the whole period the disturbances.

It is reported that in the encounter between the Spanish troops and the rebels reported in our issue of the 8th the Spanish lost upwards of

Hongkong, 7th Merch, 1898. Dear Sir - We understand that there is a proposal before the Jubilee Committee to buy Cralgieburn for the purpose of utilising it as a hospital at the Poak. We should therefore be glad if you would by this letter before the Committee. You are doubtless aware that for some years past we have been maintaining a small private hospital at the Penk, a hospital which was described before your Committee usa "commercial undertaking." This description is no doubt to some extent true, as we endeavour to make the hospital pay for its minitenance; but it by no means represents the whole truth as a matter of fact for the last three years only there has been a small surplus on the annual working of our hospital. Previously to that it was carried on at a loss. You will ask, "Why then do you wish to keep it up?" Our reason is that we are not allowed to treat our own cases when they are removed to the Civil Hespital (of course, you will understand that in cases of removal to hospital is almost a necessity), and since from professional interest we desire to continue attending cases we have begun with, we were driven to maintain a private hospital, even if it entailed some loss to ourselves. And not only so, but many persons prefer to continue under the treatment of their own doctor, although the nature of their illness compels their removal to a hospital. Now, this is a matter which affects not only ourselves, but also the other private practitioners in the colony, since they often send patients of their own to our Peak Hospital, and attend them there themselves, their patients being admitted at the same terms as our own. Now it seems to us that if the Jubilee Committee decide to estr lish a hospital at Craigieburn, which is wholly under the Government doctors, a great injustice will be done to us and the other private practitioners The naval correspondent of the Globe writer: in the colony; because it seems probable that "Commander Lewis K. The Singapore will be compolled to change their dectors on

entering hospital, whether they will or not. Of course, if the Jubileo Hospital is restricted to really necessitous cases, who are usually considered to be the only really eligible cases for treatment in a hospital supported by rates and contributions, we have nothing but sympathy for the schone, and would moreover willingly give our professional assistance if it were required: but at present persons in the upper ranks of society of our own and neighbouring communities, who should be well able to pay the usual fees for themselves, are being admitted to the Government Civil Hospital, less than they would have to pay at a hotel in the colony, and their medical attendance. nursing, and other extras are thrown in free gratis; the difference being made up by the ratepayers; and we feel that it is not right that a hospital on these lines should be started by the Jubiles Committee. It has been stated before your Committee that it is impossible for

the Jubileo Hospital to be managed by the Government, and yet allow private doctors to treat their own cases there. We submit that this is not a fact, that such an arrangement is perfectly simple, and that a somewhat similar plan holds good at many of the English county hospitals, and also in London at hospitals which have paying wards, for instance at St. Thomas' proof of this can be obtained by looking at their prospectus, where it is stated that doctors not members of the hospital staff can send their cases there and attend them themselves. One other point we would mention, and that is, that seeing that half the subscriptions were made up by the Chinose community, some provision should be made at the Jubileo Hospital for their treatment; whereas from our

experience with our own hospital at the Peak, it

seems doubtful whother they could be induced

to make use of a hospital situated on the upper levels .- We remain, your obedient servants,

WILLIAM HARTIGAN. F. O. STEDMAN. ALEX RESNIE.

The CHAIRMAN then explained that this meeting had been summoned with the object of considering Dr. Atkinson's proposal, which was Robinson Piano Co.

Another full house greeted the second and last performance of "A Village Priest" by the Brough Company last evening, when Sydney Grundy's famous play was received with every mark of appreciation:

To night will witness the first production in Houghong of Oscar Wilde's most succossful comedy "An Ideal Husband." Writby the Brough Company, the Englishman remarks:-"On the whole, the production of "An Ideal Husband" on Saturday may be pronounced the most ancessaful performance Mr. Brough has yet given us. There appears no limit to the perfection of equipment and stage management at his disposal, and Saturospecially to the maternity department, at rates less than they would have to nev at a botal in larly striking. Mrs. Brough's dresses were, as usual, magnificent. As to the play itself, it is COMPENSATION FOR DESTROYED INFECTED one affording the Brough Company full scope for the display of the varied talent which it possesses, and the performance showed the company at its best. As a piece of characterization bire. Her light savoir faire in depling first with Sir Robert Chiltern, whom she terrerises into promising to speak and vote as she wishes, and secondly with Lady Chiltorn, to whom she betrays him, was admirable; while in the third act she portrayed the conflict of smotions which agitates the breast of the bulled adventuress with a force and fidelity to nature beyond all praise. Mr. Brough had a congenial part in Lord Goring, the cynical, well-bred, good-natured exquisite of thirty-six, who admits to being two years younger than he is. The deeper note which he sounded in the third act, in the interview with his friend Sir Robert, rang perfectly true, and his sudden transition from grave to gay in the same scene the moment his agistocratio but prosy father appears was

there could be no question about the benefits which might be derived from disinfecting articles in pawabrokers' shops, but he was inclined to agree with Mr. Ede and the Captain Superinteedent of Police that the advantages would be counterbalanced by the difficulties that would be met. If this schome was carried out at the present moment it would be very like telling the ventilator man to make the window wider. The clothes were a small source of infection and there was a large source of infection in the thousands of coolies who went backwards and forwards from Canton. As there was no medical control over that traffle he was unable to second the resolution. If the Government were exercising all possible control to prevent infection from every source this door also might be closed, but while there were so many other doors open the best thing the Board could do Smallpox cases have decreased, but there are was to postpone action until a future day. The resolution not being seconded fell to the

ARTICLES. At the last ordinary meeting the Board re-

commended the Government to grant compensation to a shopkeeper in First Street on whose premises there were two cases of plague. His goods were ordered to be destroyed and it was back. Handicap for these goods that the compensation was rebebuenmor The Government authorised the payment The Officer administering the Government for-

warded a minute asking if it was thought the Government were going to pay for all infected property that was destroyed. It was remolved to reply that this was a case special. Each case would be considered on its merits and it was not the intention of the Board to recommend compensation in all cases.

THE OUTBREAK OF RINDERPEST. fulum Dairy Ferm, wrote asking the Board for | Cowechow. Phoebs went away with a good | maining portion of the lot to be declared an away in the first flight but they could not go

not allowed egress, while the cow boys had been looked in their respective sheds at Pokfulum as well as at Sussoon Villa.

The MEDICAL OFFICER OF HEALTH pended the following minute-I think that the Colonial Veterinary Surgeon is satisfied that those sheds have been thoroughly disinfeeted and can state that the period of incubation of the disease has expired since any cattle contained in these sheds were affected, with the disease, the request might be granted. The Dairy Farm Company are no doubt just as anxious to save their cattle as the Board is to prevent the spread of the disease. The PRESIDENT-I may mention that we have information from Mr. Ladds that there

have been no further cases at the farm. Mr. Eve asked if the burning of the carcass of the lust animal affected had been successful. The SECRETARY, at the request of the President, read the following letter :-Government Offices,

10th March, 1898. Sir -1 have the honour to report for the information of the Sanitary Board that in secordance with their instructions the last animal which was suffering from rinderpest at Sassoon Villa, Pokfulum, was destroyed at 10 a.m. on the 8th instant, and his carcase was barned under the direction of Sheik Ranjah, the man supplied by the Board to carry out the work. After burning for twenty-eight hours the carense was completely consumed at a cost for fuel, labour, etc., of \$153,70. Since then there

have been no fresh cases. I should be glad to know, in the event of any more cases of disease occurring, whether it is the wish of the Board that I should continue to destroy the carcases by fire r if they consider that burial with quickline .ill meet the requirements .- I have the honour to be, etc. - C. The President said that some time ago there ans an epidemic of rinderpost in Ayrshire, Scotland. The cattle were buried in a field,

which was walled in. The field was re-opened about five years afterwards and in three months there was a fresh outbreak of rinderpost amongst the cattle, showing that the disease germs were in the soil all the time. Mr. Ene said that in Japan careases were burnt in the crematoriums for \$1.50 each.

Manager of the Dairy Farm THE CONTROL OF TOFECTED AREAS. The question rated et the last mooting as to. whether the Board could provent persons from leaving a place which had been declared infected under the provisions of by-law 12 of Schedule A of Ordinance 17 of 1887 having been referred to the Crown Solicitor for his opinion, the papers were again loid on the table. The following minutes were appended :-

The Clown Soliciton-I am of opinion The MEDICAL OFFICER OF HEALTH-Itis that the words of by law No. 12, "And take sach steps to provent the spread of disease cant deems necessary " would entitle the Board to forbid the movement of persons into, within or out of an infected place or area. Section 2 of Ordinauce 17 of 1887, under which the Governor in Council has power to make by laws, appears to me to restrict the powers of the Sanitary Board, and I doubt whether the shove words, "And take such steps to prevent tween Canton and Hongkong, the number of the spread of disease as it deems necessary are The words used there are, "Authorising the Sanitaty Board to declare places to be infected with or HEALTH said that there had been sixteen cases discase, and to prohibit the removal of any animal, fodder, litter, utensil, or other thing from such place." Under the Diseases of Animals Act 1894, Section 22, the Board of Agriculture may make orders " for prohibiting or regulating n, or out of an infected place or area, but

similar power does not appear to have been conforred upon the Governor in Council, under Ordinance 17 of 1887. The PRESIDENT—But surely by-law 12 must

The ATTORNEY-GENERAL-Please pass to President of Sanitary Board. I am of opinion that on reading the by-laws and the Ordinance 17 of 1887, on which alone their validity depends, the Sanitary Board has ne power to prevent a man leaving a place declared to be infected with cuttle disease. To enable the Board to possess such power further legislation would be necessary. But probably the Dairy Farm Manager, if requested, would take steps to see that people did of the day and night. No charge is made for not go into the infected area unnecessarily, and if care is taken to see that those who leave wesh and then charge their clothes, I cannot see that the Board can do more. If old clothes are dostroyed (under Section 4) in disinfacting, they

are to be paid for out of the public revenue. A discussion cusued and the President moved that the Board recommend the Government to amend the Ordinance so that the Board shall have power to prevent people from leaving an
